

Seminar Schedule

Chemistry 501

Spring 2021

<i>Seminar Date</i>	<i>Guest Speaker</i>	<i>Host</i>
January 21	Dr. Jeremy Baskin - Cornell University “Chemical Tools that IMPACT Lipid Signaling”	Dr. Mike Best
January 28	Dr. Genevieve Sauve - Case Western University “Solution-processable hybrid semiconductors based on azadipyromethene complexes for photovoltaic applications”	Dr. Victor Nemykin
February 4	Dr. Jodie Lutkenhaus - Texas A&M University “Redox-active Macromolecular Radicals Towards Sustainable Energy Storage”	Dr. Mark Dadmun
February 11	Dr. Jen Heemstra - Emory University “Interrogating enzymatic reactions using nucleic acid molecular recognition and assembly”	Dr. Josh Baccile
February 18	Dr. Emily Pentzer - Texas A&M University “Using Fluid-Fluid Interfaces and Polymerizations to Architect Better Hybrid Materials”	Dr. John Brantley
February 25	Dr. Steven Tait – Indiana University Bloomington TBA	Dr. John Larese
March 4	Dr. Karl Booksh – University of Delaware TBA	Dr. Bhavya Sharma
March 11	Dr. Sarah Veatch - University of Michigan TBA	Dr. Fred Heberle
March 18	Dr. Anne McNeil - University of Michigan “Synthetic Approaches to Sustainable Polymers”	Dr. Brian Long
April 1	Dr. Premi Chandra - Rutgers University TBA	Dr. Jan Musfeldt
April 8	Dr. Robert Rioux - Penn State University TBA	Dr. Craig Barnes
April 15	Dr. Eric Sorensen - Princeton University TBA	ACGS
April 22	Dr. Cathleen Crudden - Queen’s University Kingston Ontario “Metal catalysts, clusters and surfaces: Catalytic preparation of chiral bio-molecules and the chemistry of carbon-based monolayers”	Dr. David Jenkins

ALL SEMINARS VIA ZOOM AT 4:30PM

Links will be provided on the announcements/emails

Seminar Chair: Dr. John Brantley
